Dr. Sambit Kumar Mishra	AP19110010374	student,	General	She wrote the TCS NQT exam and got selected for the interview round for the role digital. Her interview was scheduled at 5:00 PM on 15th July 2022, which has to be conducted in MS teams. She joined the meeting at 4:45 PM in advance so that there won't be any issues. She was in the meeting itself but she was not called inside the panel. She waited to see if there was any glitch from the other side. I still waited but no one was there to take her interview till 6 PM. So, she mailed regarding this to the concerned HR and to the e-mail Id through which she got the link to attend the TCS interview. But there's no response from none of them. She waited for the whole day just sitting in front of the panel and waiting for the interviewer but the interview didn't happen till date.	03-09-2022

Dr. Shubham Gupta	AP19110010086	student,	General	Placement training Feedback from student: the training is on the right track only for a past few days because the CRCS department has taken a wise decision of giving us time (afternoon session) to learn things in our own pace which is allowing us to focus on our weakest areas. As far as my progress is concerned, last Friday I gave an interview to TCS company and the results are yet to come. I am putting my efforts to improve my skills and trying to be placed in a good company.	25-07-2022
Dr. Shubham Gupta	AP19110010019	student,	General	Placement Training feedback from student: The Present Placement Process is going fine. Dr. Deepak Kachave	group	22	Rich Panel	A meeting was conducted for all placement registered students. However, 10 to 12 students only attended the meeting. Remaining students were later asked to share their feedback via WhatsApp. For rich panel company, few students missed the deadline as they were informed with a very short time frame and therefore they could not apply. Other students, they were able to solve more than half number of test cases. Further, they informed they were not sure about "hidden test cases" (where only input is given but not the expected outcome). One student Rahul Gupta who reached final stage said "I was asked to develop a full stack app in 24 hours and I was not able to finish it within 24 Hours"	23-08-2021
Dr. Deepak Kachave	group	22	National Instruments	A group meeting was conducted and feedback was collected for all students and stored on personal laptop. Dr. Deepak Kachave	group	22	AB InBev	A group meeting was conducted and feedback was collected for all students and stored on personal laptop. Subsequently, feedback for selected few students as requested by placement coordinator was shared in excel sheet. In general, students said they need "self-practice of coding as well as aptitude" as they were not able to solve 25 aptitude questions in 25 minutes time. Further, they said they need to practice java coding.	23-08-2021
Dr. Deepak Kachave	group	6	General	Mock interviews were conducted for Non-placement registered (higher studies) students. Feedback regarding their domain subjects and other soft skills were given. Each interview lasted for roughly 35 minutes.	23-08-2021
Dr. Deepak Kachave	group	22	General	Mock interview were conducted for all 22 placement registered candidates in week from 26th july to 31st July. One student had some IELTS exam so interview was conducted later. During this mock interview several feedback were given to each student individually (For ex:- how to improve domain subject such as CN, OS. etc. Many students find mock interviews very useful). On an average mock interview for each candidate last for 40 minutes approximately.	23-08-2021

Dr. Kumaran Pazhamalai	AP18110010655	student	Phone	I talked to a student about her attendance rate and why she didn't show up to class more than 5 days out of 6 days, especially in the afternoons. She responded that she is only missing two days a week and that on the other days she attends the entire session without leaving. I also explained the pattern of collecting attendance, such as the student should be online 80% of the time, and I told her that if this condition continued, she would receive two warnings and it continuous then her name would be removed from the placement list. As a result, she told me that she would continue to attend class on a regular basis in the future.	15-06-2021
Dr. Kumaran Pazhamalai	AP18110010045	student	Phone	Last week, the student was missing on 11 and 12 June 2021, out of a total of 6 days of training. As a result, the student attendance rate drops below 80%. I inquired about her absence, and she stated that her grandfather died as a result of COVID-19, and as a result, she was unable to attend the last two days of training programmes held last week. As a result, I advised her of the significance of attendance percentage in terms of attending placement. So she promised me that she would come to the training session on a regular basis from now on.	15-06-2021
Dr. Kumaran Pazhamalai	AP18110010040	student	Phone	As i spoke with student regarding her attendance percentage less than 80%. Especially she is absent in all afternoon sessions from 08.06.2021 to 12.06.2021. I asked her the reason and she informed that she is higher study aspirant and she had GRE training classes during that time. Parallely she is looking for our campus placement also with the criteria of that 1 offer option for higher study aspirant. That is the reason she is not attending all 5 days of our afternoon training sessions. Now i asked her if possible please try to change GRE training times and attend our training session effectively. As i suggested she has changed her GRE training timings and respond me the same today morning. So from second week onwards she will be regular to our training programs.	15-06-2021
