* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which the category applies. If applicable, it is provided along with this scorecard.

General Information

The GATE 2023 score is calculated using the formula:

$$\text{GATE Score} = S_e + (S_u - S_e) \cdot \frac{(M - M_e)}{(M_u - M_e)}$$

where:

- M_e is the marks obtained by the candidate in the paper (mentioned on this GATE 2023 scorecard)
- M_u is the qualifying marks for general category candidate in the paper
- M is the mean of marks of top 0.1% (or top 10 marks, if it is larger) of the candidates who appeared in the paper (in case of multiple-session papers including all sessions)
- $S_e = 500$, is the score assigned to M_e
- $S_u = 900$, is the score assigned to M_u

In the GATE 2023 score formula, M_u is 25 marks (out of 200) for $e = 0$, whichever is greater. Here, e is the error and r is the standard deviation of marks of all the candidates who appeared in the paper.

Qualifying in GATE 2023 does not guarantee either, an admission to a post-graduate program or a scholarship/scholarship. Admitting authority may conduct further tests and interviews for final selection.

Concrete Approval Fee in Engineering (GATE 2023) was organized by Indian Institute of Technology, Kharagpur on behalf of the National Coordination Board (NCB) - GATE, for the Department of Higher Education, Ministry of Education (MHE), Government of India.

Overall Band Score

Overall

8.5

Very Good User

The test taker has fully operational command of the language with only occasional unsystematic inaccuracies and inappropriate usage. They may misunderstand some things in unfamiliar situations. They handle complex and detailed argumentation well.

Test

Score

Your result explained

Advice to improve your score
Listen to discussion programmes, especially those on abstract topics you're less familiar with, without pausing or repeating the recording. Try to predict how the conversation might develop, then see if you're correct. Make it a point to notice how the speakers express and qualify their opinions, noting ways they say things that make their arguments particularly effective. Where speakers have different points of view, notice how they respond to one another's comments. Use strategies to infer ideas and meanings that are not directly stated. Afterwards, try to reconstruct the discussion to yourself, to check how much you have understood.

Listening

8.5

Test takers at Band 8.5 can typically follow extended speech involving complex and detailed argumentation. They can identify and process language and grammar automatically, and so are able to concentrate on the development of the overall meaning of what is said by a speaker or speakers. They can understand a wide range of vocabulary, including idiomatic language and fixed phrases or unusual collocations, as well as technical and academic language.

Test takers at Band 9 can typically deal with ease with a variety of factual and opinion-based texts that are complex and dense with information. They are proficient at using their extensive vocabulary knowledge to create meaning, from sentence level to text level, on a broad range of general, specialised, and technical topics. They are highly skilled at following complex arguments and distinguishing between main ideas and supporting details, and at understanding attitude, opinion and implication. They are skillful at choosing and using reading strategies, including skimming and scanning, in order to successfully deal with texts.
