Dear All,

I am sure you would have come across statements like "Good vibes only", "Stay positive" etc. While well-intentioned, many times it can be quite destructive. It turns out that "too much of a good thing" can be harmful even in the case of positivity.

When 'Good Vibes' or 'Positivity' starts affecting our wellbeing, it turns into Toxic Positivity. It is an overgeneralization of positivity and encouragement of happy emotions in all areas of life. Now the question is, "How can Positivity be toxic?"

Honoured with APJ Abdul Kalam Memorial International Travel Award

GUNTUR(THE PHOTO CHRONICLE):SRM University AP, Andhra Pradesh faculty, Dr. Tousif Khan N, Assistant Professor and Head of the Department, Department of Electrical and Electronics Engineering, is to present a paper "Laguerre Neural Network Driven Adaptive Control of DC-DC Step Down Converter" in the renowned International Federation for Automatic Control (IFAC) World Congress to be held in Germany during July 12-17, 2020. Further this research article is also selected for the prestigious APJ Abdul Kalam Memorial International Travel Award by the Automatic Control and Dynamic Optimization Society (ACDOS) chaired by Professor Ravi Gudi of Indian Institute of Technology Bombay. The research work of Dr. Tousif proposes a novel Laguerre neural network estimation technique for the approximation of unknown and uncertain load function, followed by its subsequent compensation in the adaptive backstepping controller. A detailed design of the proposed estimator and adaptive backstepping controller along with closed loop asymptotic stability have been presented.
