

# Yearbook 2022

*Filled with emotions, love and loads of memories.*

*Yearbook 2022 is all yours to relive your favourite moments yet again.*

## My List

1

### Message from President

*"A university without its students is just an empty space, it is students like you who transform it into a place of ideas fostering creativity and innovation"*

2

### Message from Vice Chancellor

*"The future belongs to those who believe in the beauty of their dreams."*

3

### Message from Advisor

*The Class of 2022 is flying off, leaving behind a bunch of memories for the university, your teachers, and friends to cherish forever...*

4

**Message from Pro Vice Chancellor**

*In the past 4 years, you have made us proud in different ways. It is a great achievement for a nascent University to have students like you who are globally recognised for your talent and expertise...*

5

**Message from Registrar**

*The same spirit and fighting nature you showed during the pandemic can continue further in all aspects of your life...*

6

**Message from Dean - SLASS**

*It is great art, possibly the greatest art to know when to move, when to break the roots, often in pain and tears, to shake hands to say 'goodbye' . The time has arrived to say goodbye and to move ahead in life...*

7

**Message from Dean - SEAS**

*Your accomplishments are even more impressive as you carried them out during a worldwide pandemic! Believe in yourselves as I believe in you...*

8

**Message from Dean - SEAMS**

*Finishing a programme from a reputed University is indeed a wonderful achievement. You can all be proud of yourselves...*

9

**Message from Dean - Academic Affairs**

*Education is not like filling a pail, but lighting a fire. Explore! Discover! Dream!*

10

**Message from Associate Dean in-charge: Sciences - SEAS**

*I am very happy to congratulate the graduand of 2022. All the students had made a tough journey during the last few years...*

11

**Message from Former Assistant Director - Alumni Affairs**

*It's a pleasure to see you grow, learn, and earn your degree from the fast-growing university, SRM University-AP, Andhra Pradesh...*

12

**Message from Faculty In-Charge: Alumni Affairs**

*In this world of competition everyone is busy running the rat's race...*

# THE PRESIDENT

Dr. P.Satyanarayanan

***“A university without its students is just an empty space, it is students like you who transform it into a place of ideas fostering creativity and innovation”***

My greetings to the graduands and their family members!

It is a pleasure to write to all the bright minds from the batch of 2022. Exactly 4 years ago, the second batch at the institution arrived at this campus, excited to start a new journey in their careers and anxious about where the path will take them. Looking back to the time spent in the last 3 to 4 years, I am confident that you all have enjoyed your time at college with each other and are eagerly waiting energetically and passionately to venture out and explore the real world. Your batch has been one of the few who has witnessed a plethora of changes in and around the world during the span of college years. The global pandemic has put us all in uncomfortable and stressful situations in many aspects of our personal, professional and social lives. With the focus of education shifting from the traditional in-classroom approach, the pandemic has played a pivotal role marking the shift towards online and hybrid learning and making us adapt to new and untested methods very quickly.

# MESSAGE : THE PRESIDENT

Dr.P.Satyanarayanan

Looking at your batch over the last 2 years, it has astonished me that even during these trying times you have shown great patience and resilience and had an incredible quest to seek knowledge.

The batch collectively has excelled in all domains be it in academics, research, higher education, placements & career development, entrepreneurship, extra-curricular & co-curricular activities and more. Some of you may now have decided what to pursue in the upcoming years while some may still be exploring new areas. There are no defined paths to success. Always be willing to take risks in life and be a little adventurous. Stay curious and believe in your strengths and in your intuition. Ups and downs are part of every journey and those who show patience and strive for excellence will always find success in the end. Accept failures when they come and stay optimistic about the future ahead. Being a part of India which has a generation of vibrant young minds, I am sure that each of you will learn from others around us and contribute equally towards making this world a better place to live for us and for the future generations. The pandemic has also taught us the importance of physical, mental and emotional well-being and so do take care of yourselves and of people around you.

In the end, I wholeheartedly congratulate each and every graduating student from the batch of 2022 for their hard work and stupendous performance. After mentoring you over the past couple of years, I along with the faculty hope that we continue the relationship we have with each other in the coming years collaborating in a way which benefits you, your juniors and the institution. We are extremely proud of the entire batch of 2022 and wish you success for your future endeavours.

MESSAGE

# VICE CHANCELLOR

Prof. Manoj K. Arora

*“The future belongs to those who believe in the beauty of their dreams.”*

- Eleanor Roosevelt

## MESSAGE : VICE CHANCELLOR

Prof. Manoj K. Arora

We will follow you wherever you would go. I am sure you will also reciprocate with the same spirit and be equal partner in shaping the SRM University AP.

We are in the process of setting up the Alumni Relations Office and giving structure to it. The office would be the one stop for you to get connected with your alma mater. I would therefore urge you to associate with us through our Alumni Student Mentorship Programme, Alumni Start-ups Programme, Alumni Research and Development Programme and Alumni Financial Support Programme. The details of these programmes will be shared with you in due course of time either on email or through the Alumni Portal, where you must register.

I trust that the entire alumni of SRM University AP will come forward and provide strong support to the university in its growth. I look forward to your continuing involvement in the years to come as we march ahead in unison towards a new zenith of achievements.  
***Come, Connect and Construct your Alma Mater.***

Affectionately yours,  
Manoj K. Arora

# ADVISOR

Prof. Vajja Sambasiva Rao

As one more batch is all set to embark on a new journey, I would like to convey my heartiest congratulations to this Class of 2022 on the successful completion of their graduation. It has been a rewarding experience to watch you evolve into flexible and competent individuals all set to make great strides in life. The university is immensely proud to have nourished each of you with an enriching learning experience that helped you grow into multifaceted, dynamic personalities capable of rendering valuable contributions to our society.

The Class of 2022 is flying off, leaving behind a bunch of memories for the university, your teachers, and friends to cherish forever. The endless list of achievements and every tiny contribution each of you has made to the institution has already brought us laurels from far and wide. The international accomplishments, enviable placement opportunities, and inspiring research innovations this batch has made happen bear testimony to the resourceful academic journey you have had here.

## MESSAGE : ADVISOR

Prof. Vajja Sambasiva Rao

While many of you have stepped into globally acclaimed universities for higher studies and research, some amongst you have proved your mettle as future entrepreneurs and innovators. Let all these prideful achievements be a source of confidence for you to undertake greater endeavours in the times to come.

Having secured graduation from one of the finest institutions in the country, each of you has amassed a wealth of experience to give out the best in your chosen field of interest. Let this inspire you to pursue your passion and transform every challenge into a possibility. We envision each of you growing into accomplished professionals and making outstanding progress in your career. But most importantly, live your life as true human beings and always hold on to your integrity and self-worth, making all your accomplishments even more precious. After all, education is not always about academic qualifications and professional growth. At the end of it all, your persona as an authentic human being is what holds you dearer to the world.

I wish all my dear students an abundance of happiness, love, and success in their lives. Your Alma mater is always looking forward to hearing the triumphant tales of its students. Come back to us and enlighten your successors with your enriching experiences. Stay connected with your teachers, friends, and well-wishers who have been there for you through all the thick and thin. May all of you have an exciting and fulfilling life ahead.

# PRO VICE CHANCELLOR

Prof. D. Narayana Rao

My Dear Students,

Congratulations Class of 2022, for successful completion of your graduation. The last 4 years with you was a very exciting journey where we have put the best efforts to groom you as holistic personalities to face and cope up with the challenging tasks that you may encounter in your careers. It gives me immense pleasure to know that all of you are entering your aspirational careers with a desire to learn, a desire to work, focused aim and with ambitions in life: research, higher studies, or entrepreneurship. I most certainly hope that whatever you have learnt here, you will apply the knowledge and experience in your life. I am sure that you will have abundant opportunities throughout your career.

## MESSAGE : PRO VICE CHANCELLOR

Prof. D. Narayana Rao

In the past 4 years, you have made us proud in different ways. It is a great achievement for a nascent University to have students like you who are globally recognised for your talent and expertise. Be it numerous hackathon winnings, placement opportunities, higher studies opportunities in the best QS ranked Institutions worldwide; you have proved your mettle in every sphere of your academic pursuits here. I am confident that the coming days will reveal more of you, and we will have good reasons to be more, proud of you. I wish you all the best in your personal and professional lives. You please be in contact with your Alma Mater, keep motivating your juniors, and you are always most welcome to visit the University.

# REGISTRAR

Dr. R Premkumar

Dear Class of 2022,

At the outset, I would like to congratulate all of you for successfully completing your graduation with bright flying colours. All of you would be starting a new phase / journey of your life and career in terms of Higher Education, Jobs, and few of you may become Entrepreneurs as well. Though, we all faced the Pandemic Covid – 19, you stood bravely against it with all the safety precautions in and around your living environment. Most of your classes and examinations were conducted in online mode in the past two years to keep you safe and healthy during the difficult pandemic times and you are all came out successful where you have experienced a virtual and digital world which shall help you further. The same spirit and fighting nature you showed during the pandemic can continue further in all aspects of your life. Make sure that you all comeback to the University with your success stories which will help and inspire your fellow juniors. Your contribution back to the University in all aspects would be a great gesture and can help your alma - matter. Once again, I congratulate you all and Wishing you all the best for your future journey ahead.

# DEAN - SLASS

Prof. Bandi Kamaiah

Dear Students,

It is great art, possibly the greatest art to know when to move, when to break the roots, often in pain and tears, to shake hands to say 'goodbye' . The time has arrived to say goodbye and to move ahead in life.

Every journey must come to an end so that a new journey may begin. It is "sweet though in sadness." But we are proud and want to congratulate you on your graduation from SRM University AP, one of the most prestigious academic institutions in the country.

Let your farewell from this institution open new doors for you. Dear students, your achievements are the evidence of your hard work and sincere efforts. I wish you all the very best for a bright future ahead. May you achieve success and enriching experiences wherever you go.

# DEAN - SEAS

Prof. BV Babu

Hearty Congratulations Class of 2022, for successful completion of your studies at one of the most promising and upcoming multi-disciplinary research focused University, i.e., SRM University-AP, Andhra Pradesh.

I am so proud of you all and I wish you all continued success and happiness in whatever you do at both personal and professional levels. I know how hard you have worked throughout the duration (the most crucial period of your life) you spent at SRM University-AP, Andhra Pradesh.

You completed your higher education studies during a devastating global pandemic. No doubt your life during the pandemic was not normal and highly disrupted. No doubt there was added stress due to the online mode of learning and evaluation processes. No doubt there was a slice of uncertainty to add fire to the flame.

## MESSAGE : DEAN - SEAS

Prof. BV Babu

Despite all these new situations and challenges, or more precisely because of them, you are more matured and much stronger in your approach to life, which will, I am sure, take you to places. You are a stronger student having tested yourself with extremely difficult situations.

You are a stronger professional through campus placements, as you have overcome the unexpected and persevered. You are a stronger person finding the ingenuity and resolution you did not know you had in you.

Your accomplishments are even more impressive as you carried them out during a worldwide pandemic! Believe in yourselves as I believe in you—you will make competent, sensitive, empathetic, sensible, and trusting human beings and professionals, and I look forward to meeting you all again through our alumni chapter meetings across the globe, and when you visit your alma mater at regular intervals.

Keep connected always with your alma mater through our Alumni Affairs department and continue to bring laurels and share them with your SRM Family.

I wish you the Very Best, Class of 2022! God Speed!

# DEAN - SEAMS

Prof. Bharadhwaj Sivakumaran

Finishing a programme from a reputed University is indeed a wonderful achievement. You can all be proud of yourselves. As you embark upon the next phase of your life, whether higher education or corporate life or your own venture, remember that you need to succeed. This success however must be based on strong values and ethics. With your determination, hard work and knowledge, and the blessings of the almighty, I am sure this will happen. I wish you all the best and do keep in touch, we value you forever.

# DEAN - ACADEMIC AFFAIRS

Dr. Vinayak Kalluri

Congratulations, batch of 2022 ! I am extremely proud of the countless hours of study and hard work that you have put into becoming graduates of SRM University-AP.

Education is not like filling a pail, but lighting a fire. Explore! Discover! Dream!

Excellence isn't a skill - it is an attitude. Keep up your good work and continue to strive for perfection! Believe in yourself and always be grateful to your parents.

This is a huge step toward your future, and I will eagerly wait to see what becomes of it. I hope you will all come back and tell us, visit the campus, and share your news and hard-won wisdom with the students yet to embark on their future journey.

## ASSOCIATE DEAN IN-CHARGE SCIENCES: SEAS

Prof. Ranjit Thapa

I am very happy to congratulate the graduand of 2022. All the students had made a tough journey during the last few years. The students were very cooperative during the time of COVID-19 pandemic. They tried their best to adopt the new and sudden change in the mode of the learning process. I have a very special connection with 2022 batch due to various reasons. Few engineering students, who took minor in physics, are excellent. Four students of B.Tech CSE did research project under my supervision. For Mr. Bennet Benny, B.Sc Physics, I played a role of a GURU. Mr. Bennet Benny made me proud and proved that he is an asset to SRM University AP.

Mr. Somu Koushik did a commendable work. I will be missing his interactions and his queries related to the research project. I am proud of Mr. Koya Avinash for getting an admission to the University of South Florida, USA. He was extremely focused to pursue his higher studies in a specific area. I wish to congratulate all the students whom I taught and was a mentor to. Best wishes for a successful and healthy life.

## FORMER ASSISTANT DIRECTOR - ALUMNI AFFAIRS

Dr. Sujith Kalluri

Dear Class of 2022 graduates,

It's a pleasure to see you grow, learn, and earn your degree from the fast-growing university, SRM University-AP, Andhra Pradesh. Strategic planning, smart work with dedication leads to success. Please be sure about your career goals and plan accordingly.

My hearty congratulations on achieving your degree and best wishes.

## FACULTY IN-CHARGE: ALUMNI AFFAIRS

Dr. Srabani Basu

In this world of competition everyone is busy running the rat's race. Here at SRM University AP, we are happy that you did not focus on Competition to become glorified rats. And I am delighted that you focused on Competence.

As you journey through life, remember to increase your capability quotient so that you remain much ahead of competition. And in this entire journey always be Yourself.

My prayers, love and blessings will always be with you. I will cherish the memories we created together. May there be laurels all the way.

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

# HEAD OF THE DEPARTMENT

Prof T Raghunathan

Dear 2022 batch of graduating students!

Graduating from SRM University-AP, Andhra Pradesh is an accomplishment. You were exposed to a high-quality teaching and learning environment during your four years of physical and virtual presence at SRM University AP. We provided an excellent practical and industry exposure to the entire batch of students. Most of your batch mates carried out world class research activities in cutting edge technologies in collaboration with the faculty members of the University. Many students from your batch published research papers in quality international conferences and journals. I was also very much impressed by your campus placement performance (100% placements, average salary more than 8 lakhs). More than 200 students from your batch got admission to pursue graduate studies in very good Universities abroad. Overall, your batch did very well in academics, research, and higher studies. My dear students please remember that you must pursue lifelong learning, and work with passion and enthusiasm to get success in any type of profession. I wish you to achieve many great things in your personal and professional life!

All the Best to all of you.

# STUDENT ACHIEVEMENTS

- **Rohan Sambidi got admission to the MS program at Illinois Institute of Technology, Chicago with a scholarship of \$16,000. He also got admission into Arizona State University with a scholarship of \$10,000.**
- **Mr. Sirivanth Paladugu got admission into University of Chicago which is QS ranked 10 to pursue his Masters Program in Analytics.**
- **Yedlapalli Sree Bhavana got admission for an MS program into Boston University, USA.**
- **Mr. Mohammed Jahangir Abbas has got admission into IVY League - Cornell University in Ithaca, New York ( QS # 21 ) for Fall 2022.**
- **Mr. Sumanth Kongani, received admission offer into Imperial College London (QS Rank # 7) to pursue Masters in Machine Learning and Data Science.**
- **Ms. Jaswitha Reddy got admission into University of Chicago which is QS ranked 10 to pursue her Masters Program.**
- **151 students from this batch got admission in foreign Universities to pursue Masters Programme and 11 students out of these 151 have got admitted in Universities having QS rank less than 50. Around 36 students have got scholarship of 10000 USDs.**

MESSAGE

## Head of The Department

Prof. Prakash Jadhav

Congratulations to all the graduates and best wishes for the future. I am sure with the learnings you have obtained from SRM University AP through the four years, you will do well anywhere in the world and achieve the grand success

# Student Achievements

Our final year mechanical students built a multi terrain, multi utility vehicle as part of their capstone project. Chassis/frame was designed and fabricated by students. They used the spare parts of used TATA, Maruti and Mahindra vehicles and assembled this unique low cost vehicle. Small video showing the fabrication process is also attached herewith. Currently the vehicle is available for a test drive in the campus.

Students name : Gompa Sai Venkat, Divyansh Awasthi, Mohammed Tanveer.

# Student Achievements

Our final year mechanical student Jithin Peram has just registered his start-up company Amruthik Pvt. Ltd. which specializes in supplying customized food to various hospitals based on the needs of the patients. He just started his operations from Guntur.

# Student Achievements

Our final year mechanical students Muvvala Vijaya Kumar Bharagava (left) and Meghna Bonthu (right) have registered and started their own start-up company, "Realm Tech and Solutions, Hyderabad", which specializes in video content moderation. The company is already in operation for a few months now, employs 100 people and billing approximately 32 lakh per month for now.

PRESENTS *CIVIL ENGINEERING*

## HEAD OF THE DEPARTMENT

Dr. GVP Bhagath Singh

Dear Civil Engineering Students,

It gives me immense pleasure to congratulate you on your successful career paths, besides being the first civil engineering graduating batch. Your batch's placements in the best companies and master's admissions abroad into top QS-ranked universities replicate your talent and high potential. Our faculty at civil engineering are equally happy about all your success. We delight in the time we spent with you all these four years. It is unforgettable, and I am sure it is a lifetime memory for all of us. With this, I wish you good luck with your future career endeavours on behalf of all our faculty.

MESSAGE

# Head of The Department

Dr. Pranab Mandal

Dear young graduates,  
It has been a vibrant experience to see you grow at SRM University AP. You are now ready to take up challenges in new age world.  
I wish you all the best and achieve greater heights. Stay curious, passionate, and positive

# Student Achievements

Mr. Bennet had an outstanding performance during his BSc Physics by Research program. Mr Bennet is:

1) Recipient of prestigious Erasmus Mundus Scholarship of 33,600 EURO and with 100 % tuition fee waiver to pursue QuanTEEMaster in the University Bourgogne Franche-Comté France, Technische Universität Kaiserslautern, Germany, Aarhus Universitet, Denmark and Moscow Institute of Physics And Technology, Russia.

2) NTU–India Connect Research Programme 2022 (Spring term Jan – June, 2022) for research titled “Computational Study of Systems of Self-Driven Particles at Nanyang Technological University (NTU), Singapore.

3) Published a **research article** titled “*Design principle of MoS<sub>2</sub>/C heterostructure to enhance the quantum capacitance for supercapacitor application*” in the **Journal of Energy Storage**(IF 6.583)

4) Awarded Sakura Internship Program 2019 at the Japan Advanced Institute of Science and Technology (JAIST), Japan for research work on electronic structure calculations using DFT and QMC computational methods.

# Student Achievements

Ms Sreelekha has received several accolades during her four year BSc Physics by Research including:

- 1) One-year internship with Prof. Sreeram Ramakrishna for research project titled “Fiber material with moisture retention capacity with thermal tolerance and method for manufacture” at the National University of Singapore (NUS), Singapore 2022.
- 2) Filed and Published a patent titled “A fibre material with moisture retention capacity with thermal tolerance and a method for manufacture” Application number 202141023375 (2021).

# How I met my Gang

**You know, boyfriends and girlfriends  
are gonna come and go, but this is for life.**

Chebrolu Venkata Sai Kiran  
B.Tech, CSE

Thanks for everything...

Addala Sai Sri Vaishnavi  
B.Tech, CSE

Hello everyone, I'm Vaishnavi this is the period of time to brief about how I met my friends in SRM University AP. Before that I would like to say college life is the most enjoyable, lovable, memorable, and fanciful phase of our life with lots of nostalgic and heart-warming memories. And yes! College period has been the best phase of my life.

I am a B.Tech final year student and have spent complete 4 years with my lovely friends. They were strangers to me 3 years ago but now, I think I know them better than anyone else does.

I remember how we met each other for the first time on the 'Orientation ceremony' day. We all looked a bit nervous and excited simultaneously. We all were new faces to each other. But being classmates, we came forward and shook hands. We would take lots of photographs during classes, have our lunch all together in the cafeteria, group study in the library and chit-chat for hours etc. Seriously anything! Our classroom 'masti' had no expiry date.

Addala Sai Sri Vaishnavi  
B.Tech, CSE

Coming to extra-curricular activities. The fest time used to be fantastic. There used to be chaos everywhere in the campus and every single person would be found busy in either organizing events or managing them.

We would participate in so many events, whatever be the scenario we knew how to enjoy and we still keep going on. I know one day this enjoyment will come to an end, but we still hope for the best and move on with years full of unforgettable memories, years full of ups and downs, years full of joy and tears, years of togetherness.

*Special moments :-*

Chebrolu Rukmini  
B.Tech, CSE

I have started my Journey in SRM University AP with lots of confusions and some what nervousness. On the first day I have met one girl and then after 3 days I met some people and slowly we came to know each other and became a gang at the end of sem-1.

I learned lot many things from friends and we did combined studies before exams near the grand stairs, library steps. And one of our favorite places is the cafeteria. m  
Most of the time we spent time there with friends and have fun on each other, doing assignments etc.

First week

freshers day

Chebrolu Rukmini  
B.Tech, CSE

## Class activities with Nimai Mishra sir

Every day in evening we went for walks near the parking lot. I have lot of memories there. Sometimes I cried due to some reasons my friends have supported me very much and one of my close friend is teju dronavalli she is my best friend. Even though we got some ups and downs, and we have overcome that and became more and more close. We miss those days.

Hoping same friendship forever. Miss You Guys,  
Miss you SRM University AP.

Ethnic Day

A group photo with Priyanka Mam

Chebrolu Rukmini  
B.Tech, CSE

finally farewell

Meka Varsha  
B.Tech, CSE

I have a group of people where we always bring out the best of each other. It all started during my 1st year training when I went to the mess along with some of them and then slowly, we have all become friends.  
A GANG...!

Day-by-Day together we went to classes, dinner, did some group studies for exams, assignments and also, we spent the time by playing games and talking in our favourite places during weekends in the college. We had our fights, mis-understandings but all of that lead us to know more about each other and understand how to work during tough times. also had a group in class/hostel where we have become so close because we always discuss about when to wake up next day, gossips, class timings, assignments, project deadlines and code outputs.

Now all I can say is, during the time that I had spent with all of them I had learnt a lot about life, studies and how to evolve ourselves as responsible individuals. I have different group of people in different situations and I am always very grateful for the bond that I have formed with each one of them here because though we are divided by departments, sections and as day scholars, hostelers but at last we all come under the roof of this university which makes us one.

Damarla Vijay Sai Nag  
B.Tech, CSE

My journey at SRM University AP has been one of its kind. There are moments of all shades: happy, sad, interesting , boring...and the list goes on.

What I will mostly cherish, is the time spent with friends, those anxious moments before the exams, the parent like guidance of faculty members, and the friendly environment.

The memories created will remain alive in my heart and mind forever.

Vinod Krishna Polineni  
B.Tech, CSE

I am Vinod Krishna Polineni, for my alumni yearbook I would like to share how I made my friends at SRM University AP as follows:

I have met my friends at the orientation classes of my freshman year and got acquainted there, later we decided to book for hostel rooms to experience the college life at the campus as none of us were hostellers before, after attending our classes daily we used go for snacks at the mess and sit at the basketball court and talk with others, enjoy the breeze and sometimes play badminton nearby, later at night we met more hostellers from different parts of our country and made friends with many of them and after dinner we used to play some games and left back to our rooms when the warden called for attendance, every weekend we also played football at the grounds and met international students for the first time, many at times we watched football matches along with our English professor at night in the hostel corridor, we also completed our assignments, explained each other about concepts one couldn't understand and discussed about questions taught to us in different sections while preparing for the examinations, overall we made lasting memories at the college and learnt a lot in life through our stay in the campus, whenever I were to look back at our college times I only draw positivity and passion. I am grateful to the campus, our staff and friends for such an enriching time.

-

Himanshi Chauhan  
B.Tech, CSE

Every moment I spent with you shone. Because the weather was good, because the weather was bad and because the weather was good enough. I loved every moment of it.

I met these two incredible souls in University Hostel. Akhila Reddy(right) was my temporary roommate, while Khushboo Sharma(left) was my neighbor. Akhila and I were together from the first day of university whereas Khushboo and I bonded when everyone except us on our floor went home. From then on, our countless sleepovers, late-night study sessions and dancing to old Bollywood classics started. Thank you for creating memories with me that I couldn't imagine making with anyone else.

I met these amazing guys through a common friend. Even though we all had different majors, and came from different cultures but together we had an amazing chemistry. From pulling each other's legs (literally), making time to have snacks together, still maintaining our bond during covid( A special shoutout to Zoom) to taking that one hell of a trip to Hyderabad we created and lived some amazing moments which I will keep cherishing forever.

From home to school and to University I have spent a quarter of my life with this guy who has been my annoying brother and junior the whole time. He is someone who fought with me but also cheered me when I couldn't take another step, and for being my biggest supporter through everything. You were my home away from home. I met Alekhya through him and found an amazing friend in her. Staying up late to talk about life, or crushes, or even something as trivial as a tv show plot and coming with me to explore new places. Whether it was distance, new jobs, new opportunities, or just hectic schedules, you were constant in my life.

Everybody has a home team:  
It's the people you call when something terrible happens.  
It's the people who, near or far, know everything that's wrong with you and love you anyways.  
These are the ones who tell you their secrets, who get themselves a glass of water without asking when they're at your house.  
These are your people, your middle-of-the-night, no-matter-what people.  
These people are my home team!

Pabolu Mohan Aditya

B.Tech, Mech

I was one of many who fell in love with the SRM University AP infrastructure, diversity it had, and laboratories (especially the BMW engine ;) which never worked). I was one among the students when I first enrolled in the institution in 2018, and it was Freshers Day that I first gained attention for my guitar performance eventually made me to get active on my YouTube channel for posting my guitar recordings. My interest gradually grew in photography, where I joined the photography club and initially captured images with my phone. However, my desire to experiment with the art of light was not satisfied by the phone, so I ultimately decided to get my very first DSLR.

When life is going at a good pace, the covid which disrupted everything, schools, universities, whole world got shutdown, people are suffering a lot, being an NSS volunteer at the campus I decided to contribute something to society from my side, so I have designed, developed and manufactured a biodegradable and low-cost face shield which I distributed more than 1000+ face shields to doctors, police and frontline workers, got a good appreciation and support from university and government of AP. I was really pleased when the face shield work appeared on numerous websites, newspapers, news channels, and social media websites. I owe a dept of gratitude to Pro VC sir, who first exposed me to the world of patents, I was able to file my first Indian design patent and get it granted for my face shield. Every student did his best to become accustomed to the online learning environment when courses first began using it, including me. While it is exceedingly difficult to complete tasks outside during a pandemic, it is impossible for mechanical engineers to do projects at home. We need a lot of support from our parents and team at this point, therefore they play a major role in the situation.

## SRM student gets copyright for eco-friendly face shield design

It's made of cardboard and reusable plastic

made of a thin layer of 175-micron reusable plastic and a highly durable headband made from 3 ply corrugated cardboard.

The cardboard's bursting strength is 16 kg/sq.cm, which is quite durable yet lightweight. At an affordable cost of ₹15, it comes with an elastic band adjustable for all head sizes.

P. Mohan Aditya with his face shield.

**SPECIAL CORRESPONDENT**  
VIJAYAWADA  
P. Mohan Aditya, a student of SRM University-AP, has been granted a copyright for the design of a biodegradable face shield for humans.

The third year mechanical engineering student has developed a useful face shield made from bio-degradable substances and named it 'Facial Shield 2.0' as it is an improved version of the ordinary face shields. The innovative features added to it helped him earn the copyright.

Last year on May 16, Aditya filed an application on the face shield design under

P. Education Minister Adimulapu Suresh, who met the student at the Secretariat, appreciated his efforts. "Keeping in mind the environmental degradation factor, I chose reusable plastic and cardboard that are easily degradable," he said.

The face shield 2.0 serves as the outer defence to the mucous membranes (nose, eyes and mouth), comes with a transparent visor

SRM University-AP president P. Satyanarayana, Vice-Chancellor V.S. Rao and Pro Vice-Chancellor D. Narayana Rao congratulated him.

Published by N. Ravi at Kasturi Buildings, 859 & 860, Anna Salai, Chennai-600002 and Printed by S.D.T. Rao at 55-1-4, 100 Feet Road, Industrial Estate, Autonagar, Vidyut Regd. V/J/050/2015-17 • RNI No. APENG/2001/49937 • ISSN 0971-751X • Vol. 21 • No. 128

Fortunately, I have a fantastic team and supportive parents. Despite coming from different cities, my team worked together and slept at one of the team member's home (thanks to him for putting up with us), visiting workshops, and getting excited when we hammer, weld, lathe, heat and drill the material. We completed ample number of projects throughout the pandemic and won three gold medals for two consecutive years on research day conducted at SRM University AP. If you Google my name, "Pabolu Mohan Aditya," you may discover several stories about my face shield and projects that we have completed, which is an intriguing truth that made me feel more excited.

Because of the pandemic, we somewhat lost out on enjoying our college years, but we made up for it by having virtually enjoyable experiences instead—online classrooms, turning off our camera and muting mic for entire class, working on other tasks during the class, taking online tests, power cuts :) and more!

Had lovely memories in the online classes and made lots and lots of friends during my college. I think it's important to live in the moment and enjoy it so that you'll have memorable moments to look back on...

Had lovely memories in the online classes and made lots and lots of friends during my college. I think it's important to live in the moment and enjoy it so that you'll have memorable moments to look back on...
